

Dunham Associates, Inc. Welcomes Four New Partners

Grube, Jensen, Olson and Steinmetz elected to join firm's partner group

MINNEAPOLIS – Dunham Associates, Inc. has elected four new partners to join the firm's partner group effective March 22, 2011. The new partners are Todd Grube, Matt Jensen, Randy Olson and Greg Steinmetz.

"This talented group of engineers represent the next generation of leadership at Dunham," says President and CEO Katy Kolbeck. "Their remarkable engineering expertise and innovative ideas will be a welcome addition to the firm leadership and help shape our decisions as we set our course for the future."

Todd Grube joined Dunham Associates in 1995 and is a Professional Engineer and LEED-Accredited Professional. He holds a Bachelor of Science in Electrical Engineering from North Dakota State University and has 19 years of electrical engineering experience. In his role of Senior Associate for Dunham Associates, Grube designed lighting, power and telecommunications systems for healthcare, higher education and commercial facilities with a specialized expertise in emergency power systems.

Matt Jensen is a Professional Engineer and LEED-Accredited Professional who joined Dunham Associates in 2006. He graduated from the University of Wisconsin with a Bachelor of Science in Mechanical Engineering and has 17 years of mechanical engineering experience. Jensen specializes in the design of HVAC, plumbing and fire protection systems for educational, commercial, healthcare, retail, government and correctional facilities.

Randy Olson joined Dunham Associates in 1996. He is a Professional Engineer and LEED-Accredited Professional with a Bachelor of Science in Mechanical Engineering from Mankato State University. Olson has 19 years of mechanical engineering experience with expertise in the design of HVAC, plumbing and fire protection systems for educational, hospitality, commercial and aviation facilities. He has extensive knowledge of sustainable engineering design strategies and regularly presents to industry groups on this topic.

Greg Steinmetz is a Professional Engineer and LEED-Accredited Professional. He graduated from the Milwaukee School of Engineering with a Bachelor of Science in Architectural Engineering and joined Dunham Associates in 1998. Steinmetz has 22 years of experience in the design of building mechanical systems, including the design of HVAC, plumbing and fire protection systems for retail, educational and commercial facilities.

"We're excited to welcome these four outstanding engineers into our partner group," says Executive Vice President Jay Rohkohl. "Their long-term client relationships and diversity of experience will further strengthen our ability to anticipate our clients' needs and embrace new techniques and advancements in mechanical and electrical engineering."

About Dunham Associates, Inc.: Founded in 1960, Dunham Associates, Inc. is a world-class mechanical and electrical consulting engineering firm based in Minneapolis, Minnesota.
